A new reality of race course lady begs principal of low level Privately Pharmacy Institution in Pune University

Rahul Hajare  
Indian Council of Medical Research, India

Abstract

Single mother cannot produce benefit properly which has required to children, playing, and other food source into energy. Researcher has been looking for simple and effective ways to deliver benefit into the children who have a single mother to child by their choices as well as single mother has to her choice. The most common one has taking orally that has financial support from organization which has privately manage and ruled out by under the surveillances of Pharmacy council of India and abused principal of the college. However, research shows that has easily broken down by the system. This problem has solved by using intervention by secretarial level department of health research (DHR) government of India. These can be done by binding pharmacy council of India by department of health research with government of India. The encouragement has protected with monthly salary that has single mother by choice which has service privately manage under the influence of abuse principal pharmaceutical Institutions which has linkage of slums and rural area in India. Once financial support reaches the children’s, another pathway takes over to help financial pass into the children needs. Binding of regulatory of pharmacy council of India to single mother by choice residing in private pharmacy institution in slum makes the financial hitch a ride on this protected supply chain, where it has released to do its work. Financial help also causes stimulation of brain which leads to increased release of sertraline moieties. Finding simpler ways to deliver cause into the slum’s pharmacy institution has one important avenue for tackling the myth of single mother by choice that has sweeping the developing world and GDP in slum occupied pharmacy Institutions. Single mother by choice has specific mechanisms for protecting and absorbing valuable things that would usually be correlate by financial conditions and better delivery method to their children.

Biography:
Dr. Rahul Hajare has been a hard worker all his academic life. After his Ph.D. in Pharmacy from Bangalore which he completed with flying colours, he is fortunate to work NARI primer HIV research Institute to complete Post Doc of World-Renowned Scientist Respected Dr. R.S. Paranjape., Retired Director & Scientist ‘G’ National AIDS Research Institute Pune. Dr. Rahul Hajare has Associate Professor of Medical Chemistry to Pune University (until 2020), he has serviced three times Associate Professor in Pharmaceutical Science and Analytical Science. Dr. Rahul Hajare now Principal of Ishwar Deshmukh Institute of Pharmacy affiliated to council of India.
